Chairman of the Zoning and Ordinance committee Jackie Cepress opened the committee meeting at 6:30 p.m.

The committee would like to thank the Town of Arpin board members and the residents for entrusting us to get ordinances and or zoning together for the public health and safety of our community and the future generations. We have been looking at other municipalities and the solar ordinances they have in place along with contacting Jarchow Law Office for guidance.

We recommend that the town board sign the letter of engagement from Jarchow in regards to Wind and sign the letter of engagement for the solar to adopt the ordinances. This step will show the community that we all care for our health and safety. As you have heard from the town residents last week that this is what is wanted and needed.
